MOQ	100PCS

This [24V powered USB cable](#) with male to female connector, allows the extension of a Powered USB connection and can be used to connect various devices. The cable is used both for data transmission and for power supply of the connected device,it can transmit data at a high-transfer speed.It provides superb grounding and protection for all components, as well as protection against the normal wear and tear that can result from repeated insertions and removals.It eliminates external power supply needs for USB peripheral devices such as receipt printers, signature capture devices and bar-code scanners.

We also have other color 12V powered cord USB cable,such as [12V powered USB extension cable with RJ50 connector](#).
