

Our disc-shaped gold-plated EEG electrodes are the ideal choice for professionals and researchers in neuroscience, clinical diagnostics, and BCI technology. Made from high-conductivity copper with a thick, medical-grade gold plating, these electrodes are optimized for wet electrode EEG applications. The flat disc design ensures consistent skin contact and accurate signal acquisition with minimal noise.

Manufactured in Dongguan, China by a trusted ISO13485 and ISO9001 certified factory, we offer reliable OEM/ODM solutions and bulk supply options for international B2B buyers. Whether you are developing advanced brain-computer interface systems or producing high-performance EEG caps, our electrodes meet global quality and compliance standards.

For comprehensive EEG monitoring solutions, consider our [Custom Medical Cables](#), designed to ensure seamless connectivity and signal integrity. Additionally, our [Electrode Pads](#) offer reliable performance for various medical applications, complementing your EEG setup effectively.

Certification and Compliance:

This cable meets strict standards to ensure the highest quality and safety levels in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards for medical device quality management systems.
- **ISO 9001:** Ensure that products are manufactured under a sound quality management system.
- **FDA Approved:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Complies with the EU Medical Device Regulation (MDR) to ensure safety and effectiveness for medical use.
