Manufactured by an ISO13485-certified medical cable supplier and factory in Dongguan, China, this 3.5 mm Audio Jack to Blood Oxygen Clip cable is engineered for reliable signal performance in oximetry and patient monitoring applications. The cable uses biocompatible TPU or PVC jacket to ensure flexibility, safety, and comfort for clinical or personal health use.

- 90° Right-Angle 3.5 mm Audio Jack to 4.0 mm Electrode ECG Snap Cable This compact elbow-style cable features a right-angle 3.5 mm audio jack on one end and a 4.0 mm ECG snap connector on the other. It's CE, RoHS, FCC certified, customizable in 30 cm length and color—perfect for tight spaces or stress-free connections in therapy or monitoring devices
- <u>Self-locking Metal Lemo Connector 6-Pin to DB9 SpO2 Sensor Extension Cable</u> This
 heavy-duty, medical-grade extension cable features a self-locking metal Lemo connector to DB9
 interface, customizable length and medical-gray color

The blood oxygen clip (finger or ear sensor) is available in adult, pediatric, or neonatal sizes, and supports both reusable and disposable options. The 3.5 mm connector is compatible with many portable pulse oximeters, wearable health monitors, and medical diagnostic devices.

Ideal for OEM/ODM solutions, this cable can be fully customized in terms of length, color, and connector types. Backed by years of experience as a medical cable plant and vendor in Dongguan, we ensure high-quality production, fast lead times, and global B2B support.

Certification and compliance:

The cable meets stringent standards to ensure the highest level of quality and safety in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards of medical equipment quality management systems.
- ISO 9001: Make sure the product is manufactured under a sound quality management system.
- **FDA Approval:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Comply with the EU Medical Equipment Regulation (MDR) to ensure the safety and effectiveness of medical uses.
