

Product parameters:

Product name	Customized 2 in 1 Stackable Banana Plugs to DC5521 Female Connector Cable for Medical Device Connectivity
Connector	Banana Male Plug and DC5521 Female Connector
Cable length	30cm or customized
Cable color	white,grey,black or customized
Function	TENS EMS Transmission/Massager ECG/EKG/EEG/EMG Adapter Cable
Minimum order quantity	500pcs

Features:

- **One-to-Two Multifunctional Design:** Expanding the connection flexibility of equipment and meeting the power supply requirements of different modules of dual-channel physiological monitors.
- **Compatibility Expansion:** Compatible with multiple mainstream medical equipment,can be flexibly connected to different models of detectors, therapeutic apparatuses,reducing the equipment adaptation cost.
- **Compact Structure:** The overall structure is designed compactly. On the basis of meeting electrical performance requirements, it minimizes the occupied space to facilitate integration into the narrow cavities of various medical equipment.
- **Cable color:** black, white, gray or Custom
- **Pins mold injection color:** Red,Black
- **Factory & Certification Advantages:**Equipped with [advanced manufacturing technology](#), guarantees consistent product quality. Rigorous quality control procedures are in place throughout production. Moreover, our products hold international certifications like ISO 13485 and compliance withFDA CE (MDR 2017/745), ensuring they meet the highest medical standards.
- **Heymed Electronics** are widely applied in the medical field. Its [banana plugs cable](#) and DC5521 connector medical cables provide reliable connections for various kinds of equipment in operating rooms, wards, medical research and other scenarios.

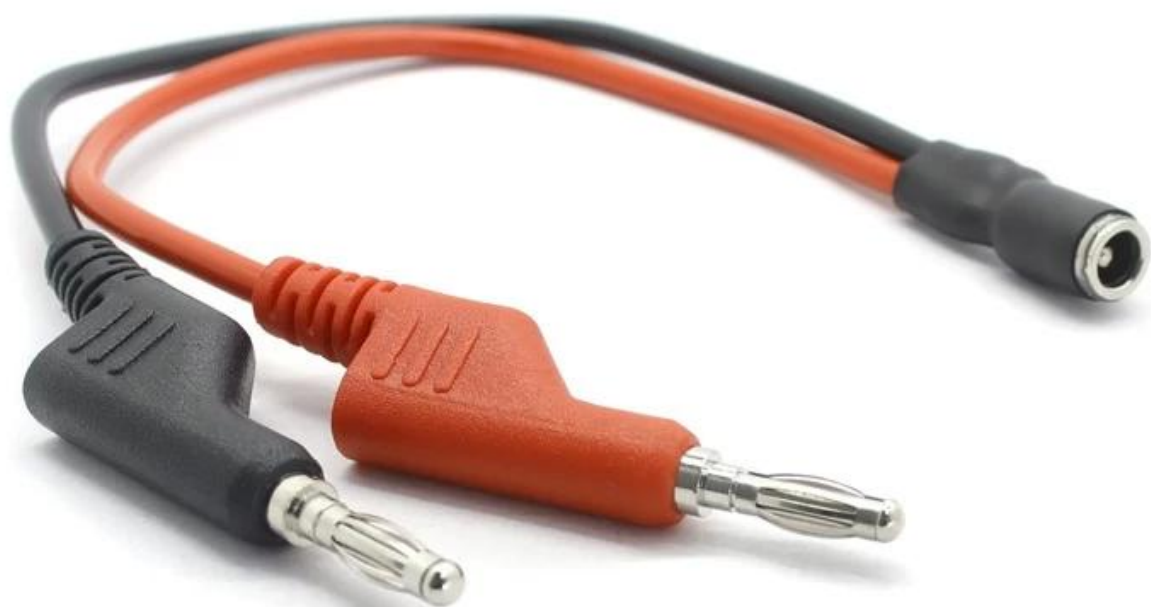

Usage scenarios:

- **Rehabilitation physiotherapy center:** Used to connect various electrical stimulation physiotherapy apparatuses with electrode patches to accurately transmit current and help the body function recover.
- **Sports rehabilitation clinics:** Paired with sports monitoring equipment and rehabilitation training devices to provide real-time feedback of sports data, helping coaches adjust rehabilitation training plans based on the data and improve rehabilitation effects.
- **Home physiotherapy scenarios:** Making portable physiotherapy equipment compatible with household power supplies, facilitating patients to conduct simple physiotherapy at home according to doctor's orders.

Product Certification:

- **CE Certification:**Our ECG cable complies with the essential requirements of the European Union's Medical Device Directive, ensuring its safety and performance in the European market.
- **FDA Approval :**It has obtained FDA approval (if applicable), indicating that it meets the strict standards of the United States Food and Drug Administration for medical devices. This makes it suitable for use in the US healthcare system.
- **RoHS Compliance:**The cable is compliant with the Restriction of Hazardous Substances (RoHS) directive. It is free from harmful substances such as lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBBs), and polybrominated diphenyl ethers (PBDEs), ensuring environmental friendliness.
