Manufactured by a professional ISO 13485-certified lead wire supplier in Dongguan, China, this **Customized 2.0mm Electrode Pin to 4.0mm Magnetic Snap White Cable** is designed for use in physical therapy, TENS, and EMS devices. The 2.0mm electrode pin delivers a precise connection, while the 4.0mm magnetic snap ensures quick attachment and stable signal transmission.

Constructed from high-quality, biocompatible materials, the cable offers superior flexibility and long service life, making it suitable for frequent clinical use. Its white medical-grade sheath not only enhances durability but also allows easy cleaning and maintenance. For users who require alternative plug configurations, consider our [Customized DC2.35mm Safety Plug to 2.0mm Electrode Pin Lead Wire](#), which provides a secure and reliable connection for similar medical applications.

Additionally, our [4.0mm Medical Male Snap Silicone Sheath to 4.0mm Medical Female Snap Cable](#) offers another high-performance solution designed for TENS and EMS therapy devices, ensuring exceptional durability and conductivity for long-term use.

Certification and compliance:

The cable meets stringent standards to ensure the highest level of quality and safety in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards of medical equipment quality management systems.
- **ISO 9001:** Make sure the product is manufactured under a sound quality management system.
- **FDA Approval:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Comply with the EU Medical Equipment Regulation (MDR) to ensure the safety and effectiveness of medical uses.
