Product Name	Customized 4PiN Lemos Conneator to Terminal Wire For Medical Devices   Lead Wire Manufacturer
application	Stimulation machine, physical therapy tool
length	10 cm, 20 cm, 50 cm, 100 cm or custom
color	Black, gray, white, black and custom
Conductor material	Canned copper
pack	Packaged separately

Manufactured by a professional ISO 13485-certified cable supplier in Dongguan, China, this 4 Pin LEMO Connector to Terminal Wire Cable is engineered for high-reliability signal transmission and power delivery. The LEMO plug ensures a secure, quick, and precise connection, while the open terminal ends provide flexibility for integration with various devices or systems. For applications requiring LEMO to electrode connections, you may refer to our <a href="Lemo 4P Self-Locking Connector with Dual 2 mm Electrode Lead Wire">Lemo 4P Self-Locking Connector with Dual 2 mm Electrode Lead Wire</a>, which features a push-pull design and protective cover for stable performance.

The cable uses high-purity copper conductors for low resistance and superior conductivity, with a choice of medical-grade PVC for cost-effective durability or silicone insulation for enhanced flexibility and heat resistance. Shielding options are available to reduce electromagnetic interference (EMI), ensuring stable performance in sensitive applications.

Widely used in medical devices, industrial automation, laboratory instruments, and measurement systems, this cable can be fully customized in length, pin configuration, and sheathing material to match your exact project requirements. For example, our <u>Customized 2 Pin LEMO Plastic Plug to Dual 2.0 mm</u>
<u>Electrode Pin Cable</u> is a popular choice for therapeutic device integration, offering flexible lead wire configurations and ISO 13485-certified manufacturing quality.

#### **Certification and compliance:**

The cable meets stringent standards to ensure the highest level of quality and safety in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards of medical equipment quality management systems.
- ISO 9001: Make sure the product is manufactured under a sound quality management system.
- **FDA Approval:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Comply with the EU Medical Equipment Regulation (MDR) to ensure the safety and effectiveness of medical uses.

# **Company information. Overview**

10+ Years Experienced Professional Manufacturer of Customized Cables.

2000 M² Factory space with 10years of production experience

100+ Employees

OEM/ODM Support cable customized

TOP 500 Bands approved manufacturer

## Certificate

We followed international ISO management Standard to make our custom cables

## **FAQ**

### Q1: Can I start a sample order before ordering more?

A: Of course, Heymed will provide free samples, and if we have stock, custom samples will require installation costs. Thank you for asking us to check our quality for samples.

## Q2: What payment methods do you accept?
