application	Stimulation machine, physical therapy tool
length	10 cm, 20 cm, 50 cm, 100 cm or custom
color	Black, gray, white, black and custom
Conductor material	Canned copper
pack	Packaged separately

Manufactured by a professional ISO13485-certified medical lead wire supplier and factory in Dongguan, China, this Customized DC2.35mm SafetyStandard Male Plug to SR 2.0mmElectrode Pin Cable with 5 Leads is designed for high-precision, multi-lead electrotherapy systems.

The DC2.35mm safety male plug ensures secure attachment and minimizes the risk of disconnection during use. Each of the five leads terminates in a 2.0mm electrode pin with molded strain relief (SR) for added durability and flexibility. Jacketed in biocompatible materials such as PVC, TPU, or silicone, the cable is suitable for patient-contact applications and delivers consistent signal quality.

This product is ideal for multi-channel TENS, EMS, and neuromuscular stimulation devices, offering expanded functionality and wider electrode coverage. For simpler dual-lead configurations, check out our **Customized DC2.35mm Safety Plug to 2.0mm Electrode Pin Lead Wire**, which is widely used in personal therapy units.

Another comparable option is the **2pin Connector to Gold-Plated 2.0mm Banana Plug Cable with 2 Leads**, which provides ergonomic design and premium signal integrity for electrotherapy accessories.

Our engineering and production team in Dongguan supports complete OEM/ODM customization from connector to cable length, packaging, and private labeling.
Certification and compliance:

The cable meets stringent standards to ensure the highest level of quality and safety in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards of medical equipment quality management systems.
- **ISO 9001:** Make sure the product is manufactured under a sound quality management system.
- **FDA Approval:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Comply with the EU Medical Equipment Regulation (MDR) to ensure the safety and effectiveness of medical uses.
