color	Black, gray, white, black and custom
Conductor material	Canned copper
pack	Packaged separately

Manufactured by a professional ISO13485-certified TENS EMS lead wire supplier and factory in Dongguan, China, this Customized DC 2.35mm Safety Plug to 2.0mm Electrode Pin Lead Wire provides a stable and biocompatible solution for electrotherapy applications.

The DC2.35mm plug features a secure-fit safety design, minimizing accidental disconnection during use. The 2.0mm electrode pin ensures broad compatibility with industry-standard self-adhesive electrode pads. Built with medical-grade materials like TPU or PVC, the wire is flexible, skin-safe, and available in customizable lengths and colors to match your device requirements. For a similar dual-lead configuration, you may also consider our [2pin Connector to Gold-Plated 2.0mm Banana Plug Cable](#), which offers reliable conductivity and ergonomic design.

Ideal for OEM/ODM projects, this lead wire is suitable for TENS units, EMS muscle stimulators, pain relief therapy, and rehabilitation systems. We also offer alternative pin arrangements like the [Dual 6P Male Plug Cable with 1.0mm Pin Contacts](#), which supports more complex electrotherapy setups and ensures precise signal transmission in multi-channel devices.

Our Dongguan-based engineering team supports global customers with premium-quality custom TENS lead wires tailored to your specific application needs.

Certification and compliance:

The cable meets stringent standards to ensure the highest level of quality and safety in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards of medical equipment quality management systems.
- **ISO 9001:** Make sure the product is manufactured under a sound quality management system.
- **FDA Approval:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Comply with the EU Medical Equipment Regulation (MDR) to ensure the safety and effectiveness of medical uses.
