application	Stimulation machine, physical therapy tool
length	10 cm, 20 cm, 50 cm, 100 cm or custom
color	Black, gray, white, black and custom
Conductor material	Canned copper
pack	Packaged separately

Manufactured by an experienced OEM electrotherapy lead wire supplier in Dongguan, China, this Dual 6P Male Plug Cable with 1.0mm pin contacts delivers high-precision signal transfer in medical stimulation applications. The cable is made with biocompatible materials such as TPU or PVC and can be tailored with various lead terminations, including [2.0mm electrode pin connectors](#) that are commonly used for standard TENS pads, or 3.5mm female snap connectors ideal for compatibility with snap-style electrode systems.

Our 1.0mm Dual 6P Male Plug Medical Therapy Cable is engineered for precision, safety, and high performance in medical and physiotherapy settings. Designed to connect [electrode pads](#) to TENS or EMS machines, this lead wire offers low resistance, secure fit, and long lasting durability —perfect for professional use in hospitals, clinics, and rehabilitation center

The robust and flexible construction makes this lead wire ideal for repetitive use in hospitals, physical therapy centers, and OEM therapy device kits. Custom lengths, colors, and private label services are available upon request, making it a versatile solution for a wide range of electrotherapy

Certification and compliance:

The cable meets stringent standards to ensure the highest level of quality and safety in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards of medical equipment quality management systems.
- **ISO 9001:** Make sure the product is manufactured under a sound quality management system.
- **FDA Approval:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Comply with the EU Medical Equipment Regulation (MDR) to ensure the safety and effectiveness of medical uses.
