Conductor material	Canned copper
pack	Packaged separately

Manufactured by a professional ISO 13485-certified medical cable supplier in Dongguan, China, this customized LEMO plug to 4 leads 4.0mm female sanp wire cable is designed for high-reliability bio-signal and power transmission in TENS, EMS, physiotherapy, and patient monitoring equipment. The precision-molded 4.0mm female snap connectors provide a secure, low-resistance connection with electrode pads, while the LEMO plug ensures a quick, safe, and precise interface with medical devices.

The cable can be customized in length, lead color, and connector type to match specific device configurations. Using high-purity copper conductors and medical-grade insulation materials, it guarantees durability, flexibility, and excellent signal integrity. For applications requiring alternative connector styles, you may also consider our [Plastic LEMO 4Pin Connector to 2.0mm Electrode Male Pin with 3 Lead Wire](#) as a related option.

In addition, for medical setups that require different electrode connections, we offer compatible solutions such as the [Custom 4.0mm Male Snap to 4.0mm Female Snap Cable for TENS EMS Devices](#) to ensure seamless integration across multiple therapeutic systems.

Certification and compliance:

The cable meets stringent standards to ensure the highest level of quality and safety in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards of medical equipment quality management systems.
- **ISO 9001:** Make sure the product is manufactured under a sound quality management system.
- **FDA Approval:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Comply with the EU Medical Equipment Regulation (MDR) to ensure the safety and effectiveness of medical uses.
