	High Quality 10.0MM Female Snap to Open Electrode Medical Cable Customizable Lead Wire from ISO13485 & ISO9001 Certified Dongguan China Factory
application	Stimulation machine, physical therapy instrument
length	10cm, 20cm, 50cm, 100cm or customized
color	Black,Gray, white, black and customized
Conductor material	Tinned copper
Package	Individually packaged

The 10.0mm female snap to open end electrode cable is engineered to deliver a stable and reliable electrical connection between EMS/TENS devices and electrode pads. It features a standard 10.0MM female snap connector on one end and open terminals on the other, allowing for flexible integration across a variety of therapeutic and rehabilitation systems.

This product is manufactured in Dongguan, China, by an ISO13485 & ISO9001 certified factory, ensuring full compliance with international medical manufacturing standards. Built with oxygen-free copper and insulated using medical-grade TPU, PVC, or silicone, the cable ensures high conductivity, long-term durability, and patient safety.

It is fully compatible with a wide range of electrotherapy accessories, including our <u>Lemo plastic</u> plug to 3.5mm magnetic electrode snap connector cable and <u>OPEN to ECG clip with 4.0</u> female snap cable, offering broader applicability in clinical, sports therapy, and home-use environments.

We offer full customization in cable length, color, connector style, and private labeling. As a professional China based manufacturer, supplier, and factory, we serve B2B clients worldwide with consistent quality, competitive lead times, and scalable OEM/ODM capabilities.

Features:

- Durable snap connector with secure 10.0MM fit
- Open-end design for flexible integration
- High-conductivity copper wire for stable performance
- Manufactured in an ISO13485 & ISO9001 certified facility in Dongguan, China
- OEM/ODM supported with low MOQ

Certification and Compliance:

This cable meets strict standards to ensure the highest quality and safety levels in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards for medical device quality management systems.
- ISO 9001: Ensure that products are manufactured under a sound quality management system.
- **FDA Approved:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Complies with the EU Medical Device Regulation (MDR) to ensure safety and effectiveness for medical use.

Company information. Overview
