

Product name	Factory Custom OPEN to ECG Clip to 4.0 Electrode Female Snap Physical Therapy Cables Leading Manufacturer ISO9001 ISO13485 FDA Certificated
application	Stimulation machine, physical therapy instrument
length	10cm, 20cm, 50cm, 100cm or customized
color	Black,Gray, white, black and customized
Conductor material	Tinned copper
Package	Individually packaged

Purpose and Application Scenarios

- **Medical Rehab Centers** Used for ECG - related therapies. The OPEN end connects to devices, [high quality ECG ccable clip](#) attaches to patients for stable signal pick - up, and 4.0 connector allows adding extra electrodes for comprehensive treatment.
- **Home - based Care** Facilitates home electrotherapy for muscle or nerve issues. OPEN end plugs into home devices, ECG clip enables self - application, and [4.0 female snap cable](#) offers flexibility for additional electrodes as per doctor's advice.
- **Sports Recovery** Athletes in recovery centers benefit. OPEN end links to sports - injury treatment gear, ECG clip monitors muscle activity, and 4.0 connector supports multi - electrode treatment of common sports injuries.

Main features:

- **Durable Construction:** The cable is made of high - quality materials, ensuring long - term use without easy breakage. The [OPEN end and 4.0 electrode snap](#) are crafted with corrosion - resistant metals, which can withstand frequent plug - and - unplug operations.
- **Accurate Connection:** The ECG clip provides a secure and accurate connection to the patient's body for precise electrical signal transmission. It reduces signal interference, guaranteeing reliable electrotherapy results.
- **Customizable Length:** Our factory can offer customization options for the length of the cable, meeting different needs in various treatment scenarios, whether it's for bedside use in a home environment or for connecting to large - scale equipment in a professional medical facility.

.

Certification and Compliance:

This cable meets strict standards to ensure the highest quality and safety levels in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards for medical device quality management systems.
- **ISO 9001:** Ensure that products are manufactured under a sound quality management system.
- **FDA Approved:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Complies with the EU Medical Device Regulation (MDR) to ensure safety and effectiveness for medical use.
