

Product parameters:

Product name	Premium 90° Right Angle 3.5MM Audio All-inclusive Alligator Clip 1-to-2 Lead Wires for Physiotherapy
Connector	3.5MM Audio Male Plug and Alligator Clips
Cable length	100cm or customized
Cable color	white,grey,black or customized
Function	TENS EMS Transmission/Massager ECG/EKG/EEG/EMG Adapter Cable
Minimum order quantity	500pcs

Features:

- **Production name:** Premium 90° Right Angle 3.5MM Audio All-inclusive Alligator Clip 1-to-2 Lead Wires for Physiotherapy
- **Unique right-angle design:** With a 90° right-angle structure, it saves space and is convenient for flexible connection in complex equipment layouts, avoiding cable clutter.
- **Sturdy Alligator Clip:** Full-coverage alligator clip with stable connection. Effectively prevents detachment and ensures continuous and stable transmission of electrical signals. Ideal for medical physiotherapy products with high-quality materials and precise manufacturing.
- **2 in 1 practical configuration:** It can be connected to two places at the same time, improving physiotherapy efficiency and meeting diverse treatment needs, such as multi-site stimulation monitoring.
- **Cable color:** black, white, gray or Custom
- **Pins mold injection color:** Red,Black
- Heymed Located in Dongguan, we can produce [ECG/EKG cable](#), negative plate and other therapy accessories, have rich experience in research and development and production.

Usage scenarios:

- **Physiotherapy Clinics:** The cable are widely used in various rehabilitation physiotherapy centers. It helps physiotherapists accurately connect physiotherapy equipment and patients' bodies during treatments such as electrical stimulation, muscle rehabilitation training, and nerve conduction detection. Ensures the accurate transmission of treatment effects and improves the safety and effectiveness of treatment.
- **Home Healthcare:** With the rise of home healthcare, this lead wire is also suitable for home physiotherapy equipment, facilitating patients to conduct simple rehabilitation treatments at home, such as chronic pain relief and joint range of motion training. It provides a reliable connection solution for home healthcare and improves the quality of life of patients.
- **Medical Research:** Can be used in medical research settings to collect accurate ECG data for studies on heart function, electrophysiology, and the effects of drugs or medical interventions on the heart.

Product Certification:

- **CE Certification:**Our ECG cable complies with the essential requirements of the European Union's Medical Device Directive, ensuring its safety and performance in the European market.
- **FDA Approval :**It has obtained FDA approval (if applicable), indicating that it meets the strict standards of the United States Food and Drug Administration for medical devices. This makes it suitable for use in the US healthcare system.
- **RoHS Compliance:**The cable is compliant with the Restriction of Hazardous Substances (RoHS) directive. It is free from harmful substances such as lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBBs), and polybrominated diphenyl ethers (PBDEs), ensuring environmental friendliness.
