

Product name	Factory Direct Customize 4 Pin Lemo Male Plug to Pedal Switch Physiotherapy Wire in Guangdong ISO9001 ISO13485 Cerfited
application	Stimulation machine, physical therapy instrument
length	10cm, 20cm, 50cm, 100cm or customized
color	Black,Gray, white, black and customized
Conductor material	Tinned copper
Package	Individually packaged

Application:

- **Rehabilitation Medical Institutions:** During the rehabilitation training process, medical staff can easily control the physiotherapy equipment through the pedal switch to help patients with muscle strength training, joint range of motion training, etc., and improve the rehabilitation treatment effect.
- **Home Care Scenarios:** It is convenient for home users to operate by themselves. It can be used for simple physiotherapy such as relieving body pain and promoting blood circulation, improving the quality of life.
- **Fitness Centers:** It can be used to assist fitness equipment, such as massage chairs, stretching equipment, etc., providing users with a more convenient operation experience and increasing the functionality and attractiveness of the equipment.

Main features:

- **Stable Connection:** The [high quality 4 pin Lemo connector](#) is made of high - quality materials. Its unique bayonet locking system can provide reliable mechanical locking. It is simple and convenient to operate, with excellent anti - wear and anti - corrosion properties. It can be inserted and removed smoothly, withstand frequent use, and ensure long - term stable connection.
- **Excellent Signal Transmission:** The Lemo connector ensures stable signal transmission, effectively reduces signal interference and loss, and guarantees the precise control of physiotherapy equipment. In addition, we also have similar products, such as [Plastic LEMO 4Pin Connector to 2.0mm Electrode Male Pin with 3 Lead Wire](#)
- **Comfortable Operation:** The pedal switch is designed according to ergonomics, with a comfortable touch and easy operation, reducing user fatigue.
- **Reliable Electrical Performance:** The pedal switch uses high - quality conductive materials inside to ensure a stable electrical connection. It has strong durability and can adapt to long - term and high - intensity use.

Certification and Compliance:

This cable meets strict standards to ensure the highest quality and safety levels in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards for medical device quality management systems.
- **ISO 9001:** Ensure that products are manufactured under a sound quality management system.
- **FDA Approved:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Complies with the EU Medical Device Regulation (MDR) to ensure safety and effectiveness for medical use.
