	Guangdong Factory Custom 10MM Pure Copper Alligator Clip to Magnetic Probe for Physiotherapy Wire Harness
application	Stimulation machine, physical therapy instrument
length	10cm, 20cm, 50cm, 100cm or customized
color	Black,Gray, white, black and customized
Conductor material	Tinned copper
Package	Individually packaged

Application:

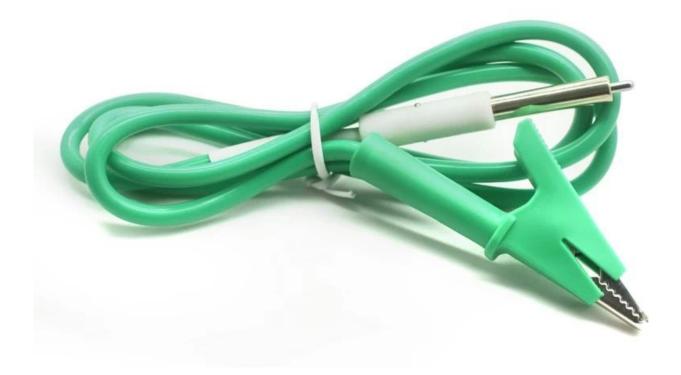

- **Physiotherapy Equipment Manufacturing**:In physiotherapy equipment manufacturing plants, whether it's large scale equipment such as massage chairs and physiotherapy beds, or small portable physiotherapy devices, the 10MM pure copper alligator clip paired with a magnetic probe can be used for internal circuit connections. This ensures the stable performance of the equipment and helps to produce high quality products.
- **Physiotherapy Equipment Maintenance:**When physiotherapy equipment malfunctions and needs to be repaired, maintenance personnel can use this alligator clip and magnetic probe to quickly connect testing equipment, detect and troubleshoot the faulty parts, accurately locate problems, shorten the maintenance time, improve the maintenance efficiency, and enable the equipment to return to normal use as soon as possible.
- **Daily Home Physiotherapy**:For health conscious household users, when using home physiotherapy equipment for daily health care, the easy to use feature of this accessory allows for easy connection to the equipment. It meets the needs of users to perform physiotherapy operations independently and provides reliable connection support for home physiotherapy.

Main features:

- **Material Advantages** The <u>high quality alligator clip</u> is made of 10MM pure copper. Pure copper has excellent electrical conductivity, which can ensure stable current transmission, reduce signal loss, and provide stable power support for physiotherapy equipment.
- Structural Design The <u>ECG alligator clip</u> structure has a strong clamping force and can firmly hold various wires or equipment interfaces. It can be operated quickly and stably to ensure reliable connection.
- **Connection Features**: The matched magnetic probe uses magnetic force for adsorption, eliminating the need for cumbersome plug and unplug actions. It can achieve quick connection, greatly improve operation efficiency, and maintain a stable state.

Certification and Compliance:

This cable meets strict standards to ensure the highest quality and safety levels in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards for medical device quality management systems.
- ISO 9001: Ensure that products are manufactured under a sound quality management system.
- **FDA Approved:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Complies with the EU Medical Device Regulation (MDR) to ensure safety and effectiveness for medical use.

Company information. Overview

FAQ

Q1: Can I start a sample order before ordering more?

A: Of course, Heymed will provide free samples if we have them in stock, customized samples require installation fees. Thank you for asking us for samples to check our quality.

Q2: What payment methods do you accept?
