application	Stimulation machine, physical therapy instrument
length	10cm, 20cm, 50cm, 100cm or customized
color	Black,Gray, white, black and customized
Conductor material	Tinned copper
Package	Individually packaged

This DB15pin female to SR 13-lead 4.0mm snap electrode medical cable is engineered for high-performance and long-term use in electrotherapy and diagnostic devices. It features a secure DB15 female connector and a strain-relieved design that connects to 13 independent lead wires, each ending in a 4.0mm female snap connector.

Made with medical-grade TPU insulation and color-coded leads for easy identification, this cable offers durability, patient safety, and low-noise signal transmission. It is ideal for integration into TENS units, EMS stimulators, ECG/EKG monitors, and other bioelectric diagnostic systems. For applications requiring fewer leads, our [2-Lead ECG/EKG Female Snap Electrode Lead Wire Medical Cable](#) offers a compact and reliable solution. Additionally, for modern devices with USB-C ports, consider our [Type-C Male Cable with Silicone Earring to 4.0mm Female Snap Tens Electrode Lead Cable](#) for enhanced compatibility.

As a professional medical cable manufacturer and supplier based in Dongguan, China, we support OEM/ODM customization for various configurations and lengths. All our products are manufactured in compliance with ISO13485 & ISO9001 standards, ensuring reliable quality and global compatibility.

.

Certification and Compliance:

This cable meets strict standards to ensure the highest quality and safety levels in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards for medical device quality management systems.
- **ISO 9001:** Ensure that products are manufactured under a sound quality management system.
- **FDA Approved:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Complies with the EU Medical Device Regulation (MDR) to ensure safety and effectiveness for medical use.
