

Product name	High Quality DB25 Assembled Male to 4.0MM Electrode Female Snap Splitter Cable Customizable EMS TENS Cable from China Dongguan Manufacturer
application	Stimulation machine, physical therapy instrument
length	10cm, 20cm, 50cm, 100cm or customized
color	Black,Gray, white, black and customized
Conductor material	Tinned copper
Package	Individually packaged

Application:

- **Hospital rehabilitation departments:** It is used in various rehabilitation treatment equipment to assist patients in muscle stimulation, nerve function restoration and other treatments.
- **Professional physiotherapy centers:** Provide convenient equipment connection solutions for physiotherapists, and support a variety of physiotherapy projects, such as electro - acupuncture therapy, electro - assisted tuina therapy, etc.
- **Home care:** Facilitate home users to carry out simple physiotherapy and health care on their own, such as relieving muscle pain and promoting blood circulation.
- **Research institutions:** As a connecting wire for experimental equipment, it is used for the collection and analysis of bio - electrical signals in medical research.

Main features:

- **Excellent connection performance:** [The DB25 assembled male connector](#) is sturdy and durable, with a long plug - and - unplug lifespan. It ensures stable electrical connections and effectively reduces signal transmission interruptions.
- **Precise electrode adaptation:** The [4.0 electrode female snap](#) has precise dimensions, fits the electrode tightly, has a low contact resistance, and can efficiently transmit weak electrical signals to ensure the physiotherapy effect.
- **Flexible multi - port design:** The unique design allows for simultaneous connection of multiple electrodes, meeting the physiotherapy needs of different parts of the body and greatly improving the treatment efficiency.
- **Made of high - quality materials:** High - quality insulating materials and conductors are used, with strong anti - interference capabilities, wear - resistance, corrosion - resistance, and adaptability to complex usage environments.

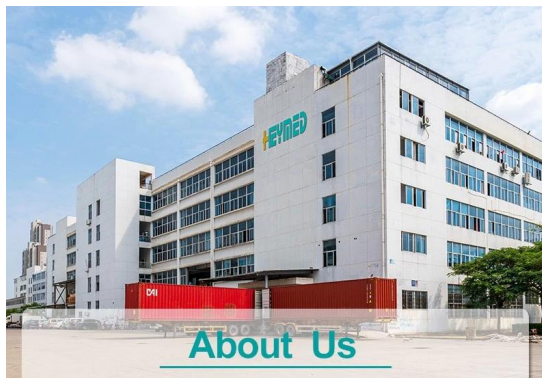

Certification and Compliance:

This cable meets strict standards to ensure the highest quality and safety levels in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards for medical device quality management systems.
- **ISO 9001:** Ensure that products are manufactured under a sound quality management system.
- **FDA Approved:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Complies with the EU Medical Device Regulation (MDR) to ensure safety and effectiveness for medical use.
