

Application:

- **Hospital Wards:** Medical staff use this cable to connect electrocardiogram monitors with computers and other devices to monitor patients' ECG data in real-time, assisting in diagnosing medical conditions.
- **Home Healthcare:** It enables patients to conduct daily ECG monitoring at home conveniently. The data can be transmitted to mobile devices through the cable for remote review by doctors.
- **Physical Examination Centers:** During the physical examination process, it is used to connect various electrocardiogram detection instruments to quickly and accurately collect examinees' ECG, improving the efficiency of physical examinations.

Main features:

- **Precise Interface:** The [USB A](#) male and 10.0MM female snaps fit tightly together, effectively reducing signal interference and guaranteeing the accuracy of data transmission.
- **High-Quality Materials:** The core is cut of high-purity copper with excellent conductivity.
- **Strong Compatibility:** Specially designed for ECG equipment, it is in compatibility with multiple mainstream electrocardiogram monitors, offering good versatility.
- **Stable Transmission:** It has outstanding shielding performance and ensures the complete and clear transmission of ECG waveforms.
- **Customization Capability:** Our factory offers extensive customization options. Whether you need a specific cable length beyond the standard ones, a modified connector design to fit unique medical devices, or a cable with enhanced shielding for extra-sensitive applications, our experienced team can tailor the product to your exact requirements. We work closely with clients to ensure that every custom-made cable meets their individual needs for optimal performance in medical heart monitoring.

Certification and Compliance:

This cable meets strict standards to ensure the highest quality and safety levels in the medical field:

- **ISO 13485:** Certification ensures compliance with international standards for medical device quality management systems.
- **ISO 9001:** Ensure that products are manufactured under a sound quality management system.
- **FDA Approved:** The product is registered with the U.S. Food and Drug Administration and meets its medical device standards.
- **CE MDR certification:** Complies with the EU Medical Device Regulation (MDR) to ensure safety and effectiveness for medical use.

Company information. Overview

About Us

10+ Years Experienced Professional Manufacturer of Customized Cables.

2000 M²
Factory space with 10 years
of production experience
